SHOCKINGLY NEGLECTED.

Le Roy Friske Allowed to Remain Without Medical Attention.

Until late yesterday afternoon it appeared that the unfortunate little fellow. Elmer Le Roy Friske, who was run over by a train and very seriously injured, was to be allowed to de for want of medical stention. The parents of the bey are exceedingly poor and appear to be very shiftless and negligent of the boy's weffare, otherwise they would have taken such steps as would have secured him proper attention and that very quiekly. It appeared that after the accident happened, it was suggested that the company's physician, be caffed, but it was finally decided to telephone for the county physician, which was done but Dr. Wright related to the total properties of the lower house in particular, divided on county and city lines, styring themselves 'The Alfairse' and 'Metropolitan's respectively, the former contending that the state should pay the expense of trails in the district course and the latter opposing the idea on the ground that such a course would sadd to telephone for the county physician, which was done but Dr. Wright re-Saik Lake, to recover Risso funds deposited in the defunct institution.

In catarrhal inflammation, in chronic displacements common to women, where there are symptoms of back acknown sensations, discretered at macin modiness, fatigue, etc., the trouble is surely dispelled and the sufferer brought back to health and good spirits by the use of Dr. Pierces Favorite proscription. It's the only medicine for women's peculiar allments devised by a regularly graduated physician, an experienced expert in this special hidd of practice, and sold through druggists. Its sales exceed the combined sales of all other medicines of its class.
